

## **Dedicated Library Spaces**

Originally Approved by the Library Board of Trustees on March 20, 2014

# *South Brunswick Public Library*

Certain reading rooms and library spaces are designed and provided for the intended use of specific age groups. These areas are dedicated to offering a comfortable, welcoming, or focused atmosphere for a defined age segment of the population.

The South Brunswick Public Library is committed to providing an inviting and safe space for teenage patrons and “tween” patrons to engage in individual and group activities. The social nature and unique characteristics of these age groups require separate spaces designed for their needs. The Teen Rooms and Tween Lounge have been established to provide appropriate spaces for these particular age groups. Other patrons are free to use these areas when school is in session; however at all other times these areas are reserved for use by Teens or Tweens.

The South Brunswick Public Library is also committed to providing a quiet space for serious study and focused work. The Quiet Study Lab has been established for Adults and High School Students to work without distraction or interruption. This space is designed solely for this age group at all times.

The Library’s Café is a space where small groups can meet and talk unless reserved for a library program. Cell phone use is permitted in the Library Café.
